

Mission Statement

Vomar Products, Inc. is a California Corporation engaged in the administration, installation and manufacture of architectural graphic programs and signage systems. The Company, incorporated in 1965, has enjoyed a reputation for innovation and quality, combining state of the art technology and rational design for its products for more than 30 years. Vomar Products specializes in solving contemporary sign and graphics problems for the industry. The service program includes design consultation to aid product

selection, material analysis, computer aided design, engineering and manufacturing, stringent quality control, on time/on budget protocol, and continuous after-sales consultation. Vomar Products' philosophy ensures the balance between economic, functional and aesthetic criterion to arrive at the most suitable solution. Any product or service we provide must meet these criteria. Vomar Products' administrative and manufacturing processes are located in a 30,000 square foot facility in Canoga Park, California.
