

AM series directory 20" h x 18" w using (6) 2" high printed modules and (2) 4" high color coded modules.

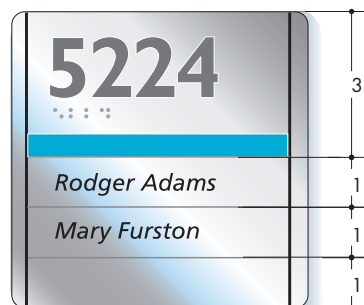

The AM Series is an unframed modular plaque system designed so any combination of directional and informational panels can be specified. The plaques and inserts may be ordered in a number of sizes and colors. Many configurations are available from rectangular to square formats with multiple plaques, ADA compliant plaques, window inserts all contained in vandal resistant design.

AM series 4" x 10" with (2) 1" h & (2) 2" h modules w/rounded end closure bars

AM series 6" x 6" with /(2) 2" h window modules & ADA copy & braille with graphic seal

AM series 6" x 6" with /(3) 1" h copy modules & (1) 3" h ADA raised copy & braille & color accent

The Custom modular plaques as shown above and left use solid stainless steel bar with brush finish for an accent device and magnetic plaques for ease of change. The plaques are ADA compliant.
